Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage and escalation workflow, achieving consistent case throughput.
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for resolution.
- Documented audit-ready case records with investigation findings, evidence notes, and corrective actions, supporting compliance reviews.
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

Projects

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built multi-API threat intelligence pipeline that submits suspicious URLs and IPs to VirusTotal, AbuseIPDB and URLScan.io and cross-references WHOIS registration age, DNS records and SSL details for phishing analysis, producing enriched IOC reports.
- Implemented typosquatting detector that generates character-substitution variants of brand domains and checks live DNS resolution for brand-impersonation analysis, outputting a ranked list of suspicious domains.
- Deployed Telegram bot interface that accepts URLs for live IOC enrichment and bulk CSV input, enriches each entry with OSINT data from theHarvester and returns detailed domain profiling reports.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built automated vulnerability assessment pipeline that integrates Nessus and OpenVAS REST APIs in Python and enriches CVE listings with CVSS severity scores and EPSS context from the FIRST.org API, generating comprehensive vulnerability dossiers.
- Developed OWASP Top 10 web checker that sends crafted HTTP requests to detect injection, broken authentication and SSRF vulnerabilities and documents findings in a structured SQL injection exploit report with remediation guidance.
- Automated scan scheduling using Bash and cron, added delta-scan logic to flag newly discovered CVEs and compiled patch compliance tracking evidence in a consolidated change log.

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring
Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics
Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening
Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics
Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
