Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Claret College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Claret PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist Amazon FBA	Jun. 2024 – Jan. 2026 Bengaluru, India
• Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, following structured workflows and decision-making processes. • Investigated seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for further action. • Maintained audit-ready case documentation, recording investigation findings, decisions, evidence notes, and corrective actions to ensure transparency and accountability. • Spotted recurring fraud patterns across 200+ weekly cases and flagged them early, reducing repeat-issue investigation time before escalation and improving overall efficiency.	

Projects

SOC Automation and Threat Detection Lab	<i>Python, Splunk, Wireshark, Nmap, MITRE ATT&CK</i>
• Deployed Splunk SIEM with SPL searches for brute-force detection, lateral movement, and privilege escalation (T1110, T1078, T1059); mapped TTPs to MITRE ATT&CK and wrote incident report. • Built SOAR-style detection pipeline: Python script ingests Splunk alerts, enriches with VirusTotal API, and dispatches Telegram notifications with severity classification. • Converted detection logic to Sigma rules; analyzed TCP/IP traffic in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure.	
Phishing and OSINT Threat Intelligence Tool	<i>Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot</i>
• Built multi-API threat intelligence pipeline: submits suspicious data to VirusTotal, AbuseIPDB, and URLScan.io; cross-references WHOIS, DNS, and SSL details for unified phishing probability score. • Developed typosquatting domain detector generating brand domain variants and checking live DNS resolution to catch brand-impersonation attacks. • Deployed Telegram bot interface for live IOC enrichment, supporting bulk CSV input/output and OSINT enrichment via theHarvester for domain profiling.	

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions, Security, Cloud

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
