Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage, escalation and decision workflows to build a compliance case log
- Investigated root causes of seller claims, identified policy violations and anomalous activity, and escalated findings to senior reviewers as a formal escalation report
- Documented audit-ready case files with investigation findings, evidence notes and corrective actions, creating a decision-trail audit docket
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

Projects

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built multi-API threat intelligence pipeline in Python that submits suspicious URLs and IPs to VirusTotal API, AbuseIPDB, and URLScan.io and cross-references WHOIS registration age, DNS records, and SSL details to generate a phishing analysis report.
- Implemented a typosquatting domain detector in Python that creates character-substitution variants of brand domains, queries live DNS resolution, and outputs a typosquatting detection list.
- Deployed a Telegram bot interface in Python that accepts URL submissions, enriches them with OSINT data via theHarvester, processes bulk CSV input/output, and returns an enriched IOC payload.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built automated vulnerability assessment pipeline in Python that integrates Nessus and OpenVAS REST APIs, pulls CVE data from NVD API, and produces CVSS-ranked reports with EPSS context from the FIRST.org API.
- Developed an OWASP Top 10 automated web checker in Python that sends crafted HTTP requests to detect injection, broken authentication, and SSRF vulnerabilities and documents findings in a structured exploit report.
- Automated scan scheduling with Bash and cron, added delta-scan logic to flag newly discovered CVEs, and organized patch compliance tracking evidence in a centralized repository.

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring
Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics
Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening
Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics
Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
