Education

Presidency College

2021 – 2023

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College

2018 – 2021

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College

2016 – 2018

Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist

Jun. 2024 – Jan. 2026

Amazon FBA

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, translating high-volume case review into structured investigation, escalation, and evidence documentation.
- Conducted root cause analysis on seller claims, identifying policy violations and anomalous patterns for pattern review and investigation handoffs.
- Maintained audit-ready case documentation with findings, decisions, evidence notes, and corrective actions aligned to evidence documentation and decision trails.
- Spotted recurring fraud patterns across 200+ weekly cases and flagged repeat issues early, reducing investigation cycles before escalation.

Projects

Application Security Engineer |

Python, Bash, Nessus, OpenVAS, NVD API, security

- Developed automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python, generating CVE reports with CVSS severity and EPSS context from FIRST.org API.
- Developed OWASP Top 10 automated web checker to detect injection, auth, and SSRF vulnerabilities via crafted HTTP requests, documenting SQL injection exploit and remediation.
- Automated scan scheduling via Bash and cron; built delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.

Application Security Engineer |

Python, Splunk, Wireshark, Nmap, MITRE ATT&CK, security

- Deployed Splunk SIEM with SPL correlation searches for brute-force detection, lateral movement, and privilege escalation; mapped TTPs to MITRE ATT&CK and wrote incident report.
- Built automated SOAR (security orchestration and automation)-style detection pipeline: Python script ingests Splunk alerts, runs IOC enrichment (threat intelligence) via VirusTotal API, and dispatches Telegram notifications with severity classification.
- Converted detection logic to Sigma rules (detection-as-code) (vendor-neutral format used by enterprise SOCs); performed TCP/IP analysis in Wireshark to detect SYN scans, DNS tunnelling, and plaintext credential exposure on unencrypted sessions.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

Automation: Python, Bash (basic), regular expressions, security

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
