Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Claret College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Claret PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist <i>Amazon FBA</i>	<i>Jun. 2024 – Jan. 2026 Bengaluru, India</i>
• Triaged 50+ weekly inventory reimbursement cases by severity and policy, applying structured workflows for timely decision-making and resource allocation. • Investigated seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers. • Analyzed 200+ weekly cases, identifying recurring fraud patterns, reducing repeat-issue investigation time, and enhancing security and compliance. • Documented investigation findings, decisions, evidence, and corrective actions in audit-ready case records.	

Projects

Product Security Intern at ShopBack <i>structured escalation, severity-based prioritization, security, audit documentation, pattern recognition, Python, Bash, Nessus, OpenVAS, NVD API</i>
• Developed structured escalation workflow for vulnerability reports classified by CVSS severity (vulnerability prioritisation) and EPSS context from the FIRST.org API using Python and Nessus REST API. • Developed Python web checker to detect injection, auth, and SSRF vulnerabilities, documenting SQL injection exploit and remediation techniques. • Automated scan scheduling via Bash and cron, building delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.
Product Security Intern at ShopBack <i>structured escalation, severity-based prioritization, security, audit documentation, pattern recognition, Python, Splunk, Wireshark, Nmap, MITRE ATT&CK</i>
• Deployed Splunk SIEM with SPL correlation searches for brute-force detection, lateral movement, and privilege escalation, mapping to MITRE ATT&CK TTPs and writing incident reports. • Developed SOAR-style detection pipeline in Python, ingesting Splunk alerts, enriching with VirusTotal API, and dispatching Telegram notifications with severity classification. • Converted detection logic to Sigma rules, analyzing TCP/IP in Wireshark to detect SYN scans, DNS tunnelling, and plaintext credential exposure.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions, security

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
