Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage and escalation workflow, producing consistent case intake logs.
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, producing escalated incident tickets.
- Documented audit-ready case records with investigation findings, evidence notes, and corrective actions for 50+ weekly cases, creating compliant audit logs.
- Detected recurring fraud patterns across 200+ weekly cases, flagged early to reduce repeat-issue investigation time before escalation, building a proactive threat-pattern library.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk SIEM with SPL correlation searches for brute force detection, lateral movement and privilege escalation and produced a MITRE ATT&CK mapping document.
- Created a Python script that ingests Splunk alerts, enriches IOCs via the VirusTotal API and sends formatted Telegram notifications with severity classification.
- Translated detection logic into a set of Sigma rules, performed TCP/IP analysis in Wireshark for SYN scans, DNS tunnelling and plaintext credential exposure and compiled the Sigma rule set.

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built a Python pipeline that submits suspicious URLs and IPs to VirusTotal and AbuseIPDB, cross-references WHOIS registration age, DNS records and SSL details for phishing analysis and outputs a consolidated threat report.
- Implemented a typosquatting detector that generates character-substitution variants of brand domains, checks live DNS resolution and logs impersonation candidates for analyst review.
- Deployed a Telegram bot that accepts analyst-submitted URLs, performs bulk CSV input/output processing and enriches each IOC with theHarvester domain profiling data.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
