Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Claret College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Claret PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist <i>Amazon FBA</i>	<i>Jun. 2024 – Jan. 2026 Bengaluru, India</i>
• Triaged 50+ weekly inventory cases by severity and policy, routing high-volume reviews for alert triage and escalation. • Conducted root cause analysis on seller claims, identifying policy violations and anomalous patterns for pattern review and investigation handoffs. • Maintained audit-ready case documentation with findings, evidence, decisions, and corrective actions aligned to evidence trails. • Spotted recurring fraud patterns across 200+ weekly cases and flagged repeat issues early, reducing investigation cycles before escalation.	

Projects

SOC Automation and Threat Detection Lab	<i>Python, Splunk, Wireshark, Nmap, MITRE ATT&CK</i>
• Deployed Splunk SIEM with SPL correlation searches to monitor IAM anomalies, mapped to MITRE ATT&CK TTPs, and reported to FIRST.org. • Developed automated cloud security pipeline: ingests Splunk alerts, enriches with VirusTotal IOC data, and dispatches Telegram notifications. • Developed Sigma-compatible detection rules for cloud TTPs, including credential abuse and lateral movement, and analyzed network traffic in Wireshark.	
Vulnerability Scanner and Patch Prioritization Engine	<i>Python, Bash, Nessus, OpenVAS, NVD API</i>
• Developed automated cloud infrastructure vulnerability assessment pipeline using Nessus and OpenVAS APIs in Python, generating CVE reports with EPSS context from FIRST.org and CVSS severity. • Developed automated security checker for cloud-hosted apps, testing OWASP Top 10 vulnerabilities, including injection, broken authentication, and SSRF; documented remediation workflows for cloud misconfigurations. • Automated vulnerability scans via Bash and cron for cloud security monitoring, detecting newly exposed CVEs and organizing compliance evidence.	

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, IDS/IPS, AWS (IAM, CloudTrail, GuardDuty), cloud security posture
Automation: Python, Bash (basic), boto3, regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
