## Education

### Presidency College

2021 – 2023

*Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India*

### St. Claret College

2018 – 2021

*Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India*

### St. Claret PU College

2016 – 2018

*Higher Secondary (12th) · Bengaluru, India*

## Work Experience

### Support Operations Specialist

Jun. 2024 – Jan. 2026

Amazon FBA

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, identifying high-risk cases for senior reviewer escalation.
- Investigated seller claims, analyzing policy violations and anomalous patterns to inform decision-making and reduce repeat-issue investigation time.
- Maintained audit-ready case documentation with findings, decisions, evidence notes, and corrective actions aligned to evidence documentation and decision trails.
- Documented audit-ready case notes, recording investigation findings, decisions, evidence, and corrective actions

## Projects

### Customs Compliance Triage and Routing Logic Development

*Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Developed escalation logic for customs compliance cases using Python and Splunk SIEM with SPL searches for brute-force detection, lateral movement, and privilege escalation; mapped TTPs to MITRE ATT&CK and wrote PICERL incident report.
- Developed automated severity-based prioritization pipeline using Python, ingesting Splunk alerts, enriching with VirusTotal API, and dispatching Telegram notifications with severity classification.
- Converted detection logic to Sigma rules (detection-as-code) for enterprise SOCs; analyzed TCP/IP traffic in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure.

### Compliance Tracking and Audit Documentation Engine

*Python, Bash, Nessus, OpenVAS, NVD API*

- Developed automated compliance tracking pipeline integrating Nessus and OpenVAS REST APIs in Python, generating CVE reports with CVSS severity and EPSS context from FIRST.org API.
- Developed audit documentation workflow documenting SQL injection exploit remediation and automated OWASP Top 10 web checker for vulnerability detection.
- Automated scan scheduling via Bash and cron; built delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.

## Technical Skills

**SOC Operations:** Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

**SIEM & Monitoring:** Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

**Threat Intelligence:** MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

**Systems & Networking:** Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

**Automation:** Python, Bash (basic), regular expressions, compliance

## Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
