Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, following structured triage and escalation workflows, achieving 98% on-time decision rate
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, supporting a 15% reduction in escalations
- Documented audit-ready case records with investigation findings, evidence notes, and corrective actions, ensuring 100% compliance for internal audits
- Detected recurring fraud patterns across 200+ weekly cases, flagged early and reduced repeat-issue investigation time by 30% before escalation

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk SIEM with SPL correlation searches for brute-force detection, lateral movement and privilege escalation; mapped TTPs to MITRE ATT&CK and produced a PICERL incident report.
- Built an automated SOAR-style detection pipeline where a Python script ingests Splunk alerts, enriches IOCs via the VirusTotal API and dispatches Telegram notifications with severity classification.
- Converted detection logic to Sigma rules for vendor-neutral use and performed TCP/IP analysis in Wireshark to identify SYN scans, DNS tunnelling and plaintext credential exposure on unencrypted sessions, delivering exposure findings.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built an automated vulnerability assessment pipeline that integrates Nessus and OpenVAS REST APIs in Python and generates CVE reports classified by CVSS severity and EPSS context, producing an EPSS context report.
- Developed an OWASP Top 10 automated web checker that sends crafted HTTP requests to detect injection, broken authentication and SSRF vulnerabilities and documented a SQL injection exploit with a parameterised query remediation guide.
- Automated scan scheduling using Bash and cron, implemented delta-scan logic to flag newly discovered CVEs and produced patch compliance tracking evidence.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
