Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage, escalation and decision workflows to produce a security-compliant case queue.
- Investigated seller claims to conduct root cause analysis, identified policy violations and anomalous activity, and escalated findings to senior reviewers for security escalation.
- Documented audit-ready case records capturing investigation findings, evidence notes and corrective actions, ensuring traceable security documentation for 50+ weekly cases.
- Detected recurring fraud patterns across 200+ weekly cases, flagged them early and reduced repeat-issue investigation time before escalation, enhancing security posture.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk SIEM with SPL correlation searches for brute-force detection, lateral movement and privilege escalation, mapped TTPs to MITRE ATT&CK and wrote PICERL incident report.
- Built automated detection pipeline in Python that ingests Splunk alerts, enriches IOCs via VirusTotal API and dispatches Telegram notifications with severity classification.
- Converted detection logic to Sigma rules for vendor-neutral use and performed TCP/IP analysis in Wireshark to detect SYN scans, DNS tunnelling and plaintext credential exposure on unencrypted sessions.

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built multi-API threat intelligence pipeline in Python that submits suspicious URLs and IPs to VirusTotal and AbuseIPDB and cross-references WHOIS registration age, DNS records and SSL details for phishing analysis.
- Implemented typosquatting domain detector that generates character-substitution variants of brand domains and checks live DNS resolution for brand-impersonation analysis.
- Deployed Telegram bot interface that enables analysts to submit URLs for live IOC enrichment, supports bulk CSV input and output for incident response workflows and includes OSINT enrichment via theHarvester for domain profiling.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
