Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Clare College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Clare PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist <i>Amazon FBA</i>	Jun. 2024 – Jan. 2026 Bengaluru, India
---	---

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured case triage discipline to prioritize high-risk cases.
- Investigated seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for timely decision-making.
- Maintained audit-ready case documentation, recording investigation findings, decisions, evidence notes, and corrective actions
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

Projects

Compliance Analyst I at Serve You Rx <i>Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot</i>
• Created audit-ready documentation for compliance tracking by building a multi-API threat intelligence pipeline that submits suspicious URLs/IPs to VirusTotal, AbuseIPDB, and URLScan.io, and cross-references WHOIS registration age, DNS records, and SSL details for phishing analysis. • Developed control validation evidence by implementing a typosquatting domain detector generating character-substitution variants of brand domains and checking live DNS resolution for brand-impersonation analysis. • Generated compliance tracking evidence by deploying a Telegram bot interface enabling analysts to submit URLs for live IOC enrichment, supporting bulk CSV input/output for incident response workflows, and including OSINT enrichment via theHarvester for domain profiling.
Compliance Analyst I at Serve You Rx <i>Python, Bash, Nessus, OpenVAS, NVD API</i>
• Created compliance tracking evidence by building an automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python, generating CVE reports classified by CVSS severity and EPSS context from the FIRST.org API. • Developed audit-ready documentation for compliance tracking by developing an OWASP Top 10 automated web checker that sends crafted HTTP requests to detect injection, broken auth, and SSRF vulnerabilities, documenting SQL injection exploit and parameterised query remediation. • Generated compliance tracking evidence by automating scan scheduling via Bash and cron, building delta-scan logic to flag newly discovered CVEs and organize patch compliance tracking evidence.

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring
Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics
Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening
Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics
Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
