Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage and escalation workflows, producing a daily case triage report.
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, generating escalation tickets for each case.
- Documented audit-ready case files with investigation findings, evidence notes, and corrective actions, maintaining a centralized repository accessed by compliance teams.
- Spotted recurring fraud patterns across 200+ weekly cases, flagging them early and reducing repeat-issue investigation time before escalation, creating a weekly pattern alert summary.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk SIEM with SPL correlation searches for brute force detection, lateral movement and privilege escalation; mapped TTPs to MITRE ATT&CK and authored incident report.
- Built automated detection pipeline in Python that ingests Splunk alerts, enriches IOCs via VirusTotal API and sends Telegram notifications with severity classification.
- Converted detection logic to Sigma rules for vendor neutral use and performed TCP IP analysis in Wireshark to identify SYN scans, DNS tunnelling and plaintext credential exposure findings.

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built multi API threat intelligence pipeline in Python that submits suspicious URLs and IPs to VirusTotal, AbuseIPDB and URLScan.io and cross references WHOIS registration age, DNS records and SSL details for phishing analysis.
- Implemented typosquatting detector that generates character substitution variants of brand domains and checks live DNS resolution for brand impersonation analysis.
- Deployed Telegram bot interface that allows analysts to submit URLs for live IOC enrichment, supports bulk CSV input and output for incident response workflows and incorporates OSINT enrichment via theHarvester for domain profiling.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
