Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Clare College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Clare PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist <i>Amazon FBA</i>	<i>Jun. 2024 – Jan. 2026 Bengaluru, India</i>
• Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured case triage discipline • Investigated seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for informed decision-making. • Maintained audit-ready case documentation recording investigation findings, decisions, evidence notes, and corrective actions, with 100% compliance tracking. • Detected recurring fraud patterns across 200+ weekly cases and flagged them early, reducing repeat-issue investigation time by 30% before escalation.	

Projects

Risk & Internal Controls Specialist	<i>Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot</i>
• Rewrote audit trails for risk identification: created decision trails, evidence notes, and corrective actions for control gap analysis and policy-based risk triage; documented multi-API cross-referencing with VirusTotal, AbuseIPDB, and URLScan.io for phishing analysis. • Developed typosquatting detection logic: generated character-substitution variants of brand domains and checked live DNS resolution for brand-impersonation analysis using WHOIS registration age, DNS records, and SSL details. • Deployed Telegram bot interface for risk prioritization: enabled analysts to submit URLs for live IOC enrichment; supported bulk CSV input/output for incident response workflows and included OSINT enrichment via theHarvester for domain profiling.	
Risk & Internal Controls Specialist	<i>Python, Bash, Nessus, OpenVAS, NVD API</i>
• Built automated vulnerability assessment pipeline: integrated Nessus and OpenVAS REST APIs in Python; generated CVE reports classified by CVSS severity and EPSS context from the FIRST.org API for risk identification and control gap analysis. • Developed OWASP Top 10 automated web checker: sent crafted HTTP requests to detect injection, broken auth, and SSRF vulnerabilities; documented SQL injection exploit and parameterised query remediation for risk mitigation and policy-based risk triage. • Automated scan scheduling: used Bash and cron for delta-scan logic to flag newly discovered CVEs and organize patch compliance tracking evidence for risk prioritization and escalation priorities.	

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring
Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics
Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening
Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics
Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
