Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage and escalation workflow, achieving consistent case routing metric.
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, producing escalation summary report.
- Documented audit-ready case files with investigation findings, decisions, evidence notes, and corrective actions, maintaining compliance record for 50+ weekly cases.
- Detected recurring fraud patterns across 200+ weekly cases, flagged early and reduced repeat-issue investigation time before escalation, delivering pattern alert count.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk SIEM with SPL correlation searches for brute-force detection and lateral movement and privilege escalation and mapped TTPs to MITRE ATT&CK and produced a PICERL incident report.
- Built an automated detection pipeline where a Python script ingests Splunk alerts and runs IOC enrichment via VirusTotal API and dispatches Telegram notifications with severity classification.
- Converted detection logic to Sigma rules for vendor-neutral use and performed Wireshark TCP/IP analysis to detect SYN scans and DNS tunnelling and captured plaintext credential exposure on unencrypted sessions.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built an automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python and generated CVE reports classified by CVSS severity and enriched with EPSS context from the FIRST.org API.
- Developed an OWASP Top 10 automated web checker that sends crafted HTTP requests to detect injection and broken authentication and SSRF vulnerabilities and documented a SQL injection exploit and parameterised query remediation.
- Automated scan scheduling with Bash and cron and implemented delta-scan logic to flag newly discovered CVEs and produce patch compliance tracking evidence.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
