Education

Presidency College

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

2021 – 2023

St. Claret College

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

2018 – 2021

St. Claret PU College

Higher Secondary (12th) · Bengaluru, India

2016 – 2018

Work Experience

Support Operations Specialist

Amazon FBA

Jun. 2024 – Jan. 2026

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, identifying high-priority issues for senior reviewer escalation.
- Investigated seller claims, analyzing root cause and policy violations to inform decision-making and reduce repeat-issue investigation time.
- Analyzed 200+ weekly cases for recurring fraud patterns, detecting anomalies and flagging them early to prevent repeat issues.
- Documented audit-ready case records, maintaining accurate investigation findings, decisions, evidence notes, and corrective actions for review and escalation.

Projects

Structured Escalation and Severity-Based Prioritization Lab |

Python, Splunk, Wireshark, Nmap, MITRE ATT&CK

- Developed escalation workflow using Splunk SIEM with SPL searches for brute-force detection, lateral movement, and privilege escalation, mapped to MITRE ATT&CK TTPs and wrote PICERL incident report for FIRST.org.
- Developed automated detection pipeline using Python, ingesting Splunk alerts, enriching with VirusTotal API, and dispatching Telegram notifications with CVSS severity classification.
- Converted detection logic to Sigma rules (detection-as-code) for enterprise SOCs; analyzed TCP/IP packets in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure.

Severity-Based Prioritization and Pattern Recognition Engine |

Python, Bash, Nessus, OpenVAS, NVD API

- Integrated Nessus and OpenVAS APIs in Python to build automated vulnerability assessment pipeline, generating CVE reports with CVSS severity and EPSS context from FIRST.org API.
- Developed OWASP Top 10 automated web checker to detect injection, auth, and SSRF vulnerabilities, documenting SQL injection exploit and remediation.
- Automated scan scheduling via Bash and cron; built delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

Automation: Python, Bash (basic), regular expressions, cloud

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
