## Education

|                                                                                                            |             |
|------------------------------------------------------------------------------------------------------------|-------------|
| <b>Presidency College</b><br><i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>   | 2021 – 2023 |
| <b>St. Claret College</b><br><i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i> | 2018 – 2021 |
| <b>St. Claret PU College</b><br><i>Higher Secondary (12th) · Bengaluru, India</i>                          | 2016 – 2018 |

## Work Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                           |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------|
| <b>Support Operations Specialist</b><br>Amazon FBA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Jun. 2024 – Jan. 2026<br>Bengaluru, India |
| <ul style="list-style-type: none"><li>• Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, ensuring compliance with structured case triage and escalation workflows.</li><li>• Conducted root cause analysis on seller claims, identifying policy violations and anomalous patterns, and escalated findings to senior reviewers for audit documentation.</li><li>• Maintained audit-ready case documentation, recording investigation findings, decisions, corrective actions, and evidence notes to track compliance and risk management.</li><li>• Spotted recurring fraud patterns across 200+ weekly cases and flagged them early, reducing repeat-issue investigation time before escalation and improving financial reporting.</li></ul> |                                           |

## Projects

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------|
| <b>Phishing and OSINT Threat Intelligence Tool</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | <i>Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot</i> |
| <ul style="list-style-type: none"><li>• Built multi-API threat intelligence pipeline: submits suspicious data to VirusTotal, AbuseIPDB, and URLScan.io; cross-references WHOIS, DNS, and SSL details for unified phishing probability score.</li><li>• Developed typosquatting detector generating domain variants and checking live DNS resolution to catch brand-impersonation attacks.</li><li>• Deployed Telegram bot interface for live IOC enrichment, supporting bulk CSV input/output and OSINT enrichment via theHarvester for domain profiling.</li></ul>       |                                                               |
| <b>Vulnerability Scanner and Patch Prioritization Engine</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <i>Python, Bash, Nessus, OpenVAS, NVD API</i>                 |
| <ul style="list-style-type: none"><li>• Developed automated vulnerability assessment pipeline integrating Nessus and OpenVAS APIs in Python, generating CVE reports with CVSS severity and EPSS scoring from FIRST.org API.</li><li>• Developed OWASP Top 10 automated web checker to detect injection, auth, and SSRF vulnerabilities; documented SQL injection remediation.</li><li>• Automated scan scheduling via Bash and cron; built delta-scan logic to flag new CVEs and track remediation SLA deadlines (Critical=24hrs, High=7 days, Medium=30 days).</li></ul> |                                                               |

## Technical Skills

**GRC & Compliance:** NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring

**Risk & Audit:** Risk assessment, control testing, audit documentation, vendor risk, RCSA basics

**Fraud & AML:** Transaction monitoring, AML typologies, KYC/CDD, sanctions screening

**Systems & Tools:** Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics

**Frameworks:** MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

## Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
