Education

Presidency College

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

2021 – 2023

St. Claret College

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

2018 – 2021

St. Claret PU College

Higher Secondary (12th) · Bengaluru, India

2016 – 2018

Work Experience

Support Operations Specialist

Amazon FBA

Jun. 2024 – Jan. 2026

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy, identifying potential threats and escalating high-risk cases to senior reviewers, resolving 80% in a timely manner.
- Conducted root cause analysis to identify policy violations and anomalous patterns, reducing repeat-issue investigation time by 30% through early detection of recurring cyber threat patterns.
- Analyzed case data to maintain audit-ready documentation, recording investigation findings, decisions, evidence notes, and corrective actions, ensuring 100% compliance with audit requirements.
- Detected recurring fraud patterns, flagging 200+ weekly cases early, reducing repeat-issue investigation time by 25% and improving case resolution efficiency.

Projects

SOC Automation and Threat Detection Lab |

Python, Splunk, Wireshark, Nmap, MITRE ATT&CK

- Deployed Splunk SIEM with SPL searches for brute-force detection, lateral movement, and privilege escalation, mapped to MITRE ATT&CK TTPs, and wrote PICERL incident report with FIRST.org collaboration.
- Developed SOAR-style detection pipeline: Python script ingests Splunk alerts, enriches with VirusTotal API, and dispatches Telegram notifications with severity classification.
- Converted detection logic to Sigma rules; analyzed TCP/IP traffic in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure.

Vulnerability Scanner and Patch Prioritization Engine |

Python, Bash, Nessus, OpenVAS, NVD API

- Developed automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python, generating CVE reports with CVSS severity and EPSS context from FIRST.org API.
- Developed OWASP Top 10 automated web checker detecting injection, auth, and SSRF vulnerabilities; documented SQL injection exploit and remediation.
- Automated scan scheduling via Bash and cron; built delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
