Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage and escalation workflow, producing consistent case routing metric.
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, delivering actionable escalation report.
- Documented audit-ready case records with investigation findings, evidence notes, and corrective actions, establishing a compliant documentation repository.
- Detected recurring fraud patterns across 200+ weekly cases, flagging early to reduce repeat-issue investigation time, achieving a 15% decrease in escalation backlog.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Configured Splunk SIEM with Python scripts to ingest logs, created correlation searches for brute-force, lateral movement, and privilege escalation, mapped findings to MITRE ATT&CK, and produced incident report.
- Developed Python pipeline that pulls Splunk alerts, enriches IOCs via VirusTotal API, and sends Telegram notifications with severity classification.
- Converted detection logic into Sigma rules, performed TCP/IP analysis in Wireshark to identify SYN scans, DNS tunnelling, and plaintext credential exposure on unencrypted sessions, and produced Wireshark analysis report.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built Python pipeline integrating Nessus and OpenVAS REST APIs, generated CVE reports classified by CVSS severity and EPSS context from FIRST.org API, and produced CVE reports.
- Created OWASP Top 10 automated web checker that sends crafted HTTP requests to detect injection, broken authentication, and SSRF vulnerabilities, documented SQL injection exploit and parameterised query remediation, and produced remediation documentation.
- Automated scan scheduling with Bash and cron, implemented delta-scan logic to flag newly discovered CVEs and organized patch compliance tracking evidence, and produced patch compliance evidence.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, IDS/IPS, AWS (IAM, CloudTrail, GuardDuty), cloud security posture

Automation: Python, Bash (basic), boto3, regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
