Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage and escalation workflow
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for compliance review
- Documented audit-ready case notes capturing investigation findings, evidence, decisions, and corrective actions, creating a control evidence repository
- Detected recurring fraud patterns across 200+ weekly cases, flagging them early to reduce repeat-issue investigation time before escalation via early-flagging process

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk SIEM with SPL correlation searches for brute-force detection, lateral movement and privilege escalation and mapped TTPs to MITRE ATT&CK and wrote a PICERL incident report.
- Built an automated detection pipeline where a Python script ingests Splunk alerts, runs IOC enrichment via VirusTotal API and dispatches Telegram notifications with severity classification.
- Converted detection logic to Sigma rules for vendor-neutral use and performed TCP/IP analysis in Wireshark to detect SYN scans, DNS tunnelling and plaintext credential exposure on unencrypted sessions.

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built a multi-API threat intelligence pipeline that submits suspicious URLs and IPs to VirusTotal and AbuseIPDB and cross-references WHOIS registration age, DNS records and SSL details for phishing analysis.
- Implemented a typosquatting domain detector that generates character-substitution variants of brand domains and checks live DNS resolution for brand-impersonation analysis.
- Deployed a Telegram bot interface enabling analysts to submit URLs for live IOC enrichment, supporting bulk CSV input and output for incident response workflows and providing OSINT enrichment via theHarvester for domain profiling.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
