Education

Presidency College

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

2021 - 2023

St. Claret College

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

2018 - 2021

St. Claret PU College

Higher Secondary (12th) · Bengaluru, India

2016 - 2018

Work Experience

Support Operations Specialist

Amazon FBA

Jun. 2024 - Jan. 2026

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying triage discipline to prioritize high-risk cases.
- Investigated seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for timely decision-making.
- Maintained audit-ready case documentation recording investigation findings, decisions, evidence notes, and corrective actions, ensuring decision trails and compliance tracking.
- Detected recurring fraud patterns across 200+ weekly cases and flagged them early, reducing repeat-issue investigation time before escalation.

Projects

Operational Risk Data Analyst | Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot, risk identification, control gap analysis

- Developed multi-API threat intelligence pipeline using Python, submitting suspicious URLs/IPs to VirusTotal, AbuseIPDB, and URLScan.io, cross-referencing WHOIS registration age, DNS records, and SSL details for risk-based phishing analysis.
- Implemented typosquatting domain detector generating character-substitution variants of brand domains and checking live DNS resolution for brand-impersonation risk assessment and control gap analysis.
- Deployed Telegram bot interface enabling analysts to submit URLs for live IOC enrichment, supporting bulk CSV input/output for incident response workflows and including OSINT enrichment via theHarvester for domain profiling and risk identification.

Operational Risk Data Analyst | Python, Bash, Nessus, OpenVAS, NVD API, risk prioritization, SLA discipline, remediation tracking

- Built automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python, generating CVE reports classified by CVSS severity and EPSS context from the FIRST.org API for risk-based vulnerability management.
- Developed OWASP Top 10 automated web checker that sends crafted HTTP requests to detect injection, broken auth, and SSRF vulnerabilities, documenting SQL injection exploit and parameterised query remediation for risk mitigation.
- Automated scan scheduling via Bash and cron, building delta-scan logic to flag newly discovered CVEs and organize patch compliance tracking evidence for risk prioritization and SLA discipline.

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring

Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics

Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening

Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics

Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
