Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage and escalation workflow, producing consistent case routing metric.
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, delivering actionable escalation report.
- Documented audit-ready case files with investigation findings, evidence notes, and corrective actions, establishing a standardized documentation package.
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk SIEM with SPL correlation searches for brute-force detection, lateral movement and privilege escalation and mapped TTPs to MITRE ATT&CK and wrote a PICERL incident report.
- Built an automated detection pipeline where a Python script ingests Splunk alerts, enriches IOCs via VirusTotal API and dispatches Telegram notifications with severity classification.
- Converted detection logic to Sigma rules for vendor-neutral use and performed TCP/IP analysis in Wireshark to detect SYN scans, DNS tunnelling and plaintext credential exposure and produced a detailed analysis report.

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built a multi-API threat intelligence pipeline that submits suspicious URLs and IPs to VirusTotal, AbuseIPDB and URLScan.io and cross-references WHOIS registration age, DNS records and SSL details for phishing analysis and generates a phishing analysis report.
- Implemented a typosquatting domain detector that generates character-substitution variants of brand domains and checks live DNS resolution for brand-impersonation analysis and outputs a detection list.
- Deployed a Telegram bot interface enabling analysts to submit URLs for live IOC enrichment, supports bulk CSV input and output for incident response workflows and includes OSINT enrichment via theHarvester for domain profiling and produces domain profiling output.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, IDS/IPS, AWS (IAM, CloudTrail, GuardDuty), cloud security posture

Automation: Python, Bash (basic), boto3, regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
