Education

Presidency College

2021 – 2023

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College

2018 – 2021

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College

2016 – 2018

Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist

Jun. 2024 – Jan. 2026

Amazon FBA

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, following structured workflows and escalation procedures, resulting in timely and accurate case resolutions.
- Investigated seller claims, identified policy violations and anomalous patterns, escalating findings to senior reviewers for improved case quality and reduced repeat-issue investigation time.
- Analyzed root cause of seller claims and documented investigation findings, decisions, evidence notes, and corrective actions, maintaining audit-ready case records and ensuring compliance.
- Detected recurring fraud patterns, flagged early, reducing repeat-issue investigation time and demonstrating proactive risk mitigation.

Projects

Vulnerability Scanner and Patch Prioritization Engine |

Python, Bash, Nessus, OpenVAS, NVD API

- Developed automated vulnerability assessment pipeline in Python integrating Nessus and OpenVAS REST APIs, generating CVE reports with CVSS severity and EPSS context from FIRST.org API.
- Developed OWASP Top 10 automated web checker in Python to detect injection, auth, and SSRF vulnerabilities, documenting SQL injection remediation and parameterised query best practices.
- Automated scan scheduling via Bash and cron; built delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.

SOC Automation and Threat Detection Lab |

Python, Splunk, Wireshark, Nmap, MITRE ATT&CK

- Deployed Splunk SIEM with SPL correlation searches for brute-force detection, lateral movement, and privilege escalation, mapped to MITRE ATT&CK TTPs, and wrote incident report.
- Developed SOAR-style detection pipeline in Python: ingested Splunk alerts, enriched with VirusTotal API IOC data, and dispatched Telegram notifications with severity classification.
- Converted detection logic to Sigma rules; analyzed TCP/IP sessions in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

Automation: Python, Bash (basic), regular expressions, security

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
