Education

Presidency College

2021 – 2023

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College

2018 – 2021

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College

2016 – 2018

Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist

Jun. 2024 – Jan. 2026

Amazon FBA

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, following structured workflows, and escalated findings to senior reviewers.
- Conducted root cause analysis on seller claims, identifying policy violations and anomalous patterns, and documented findings in audit-ready case documentation.
- Spotted recurring fraud patterns across 200+ weekly cases and flagged them early, reducing repeat-issue investigation time before escalation.
- Maintained audit-ready case documentation recording investigation findings, decisions, evidence notes, and corrective actions for compliance and regulatory review.

Projects

Vulnerability Scanner and Patch Prioritization Engine |

Python, Bash, Nessus, OpenVAS, NVD API

- Developed automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python, generating CVE reports with CVSS severity classification and EPSS scoring from FIRST.org API.
- Developed OWASP Top 10 automated web checker to detect web vulnerabilities (injection, auth, SSRF) via crafted HTTP requests.
- Automated scan scheduling via Bash and cron, flagging newly discovered CVEs with remediation SLA deadlines (Critical=24hrs, High=7 days, Medium=30 days).

SOC Automation and Threat Detection Lab |

Python, Splunk, Wireshark, Nmap, MITRE ATT&CK

- Deployed Splunk SIEM with SPL searches for brute-force detection, lateral movement, and privilege escalation; mapped TTPs to MITRE ATT&CK (T1110, T1078, T1059) and wrote incident report.
- Developed SOAR-style detection pipeline: Python script ingests Splunk alerts, enriches with VirusTotal API, and dispatches Telegram notifications with severity classification (EPSS 8.5).
- Converted detection logic to Sigma rules; analyzed TCP/IP traffic in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

Automation: Python, Bash (basic), regular expressions, risk assessment, compliance, aws

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
