Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage, escalation, and decision workflows, producing consistent case disposition output
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, supporting the escalation pipeline
- Documented audit-ready case records with investigation findings, evidence notes, and corrective actions, maintaining compliance review readiness
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk SIEM with SPL correlation searches for brute-force detection, lateral movement and privilege escalation; mapped TTPs to MITRE ATT&CK and generated PICERL incident report.
- Built automated SOAR-style detection pipeline: Python script ingests Splunk alerts, runs IOC enrichment via VirusTotal API, and dispatches Telegram notification with severity classification.
- Converted detection logic to Sigma rules in a vendor-neutral format; performed TCP/IP analysis in Wireshark to detect SYN scans, DNS tunnelling and plaintext credential exposure on unencrypted sessions, and produced a Sigma rule set.

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built multi-API threat intelligence pipeline: submits suspicious URLs and IPs to VirusTotal and AbuseIPDB, cross-references WHOIS registration age, DNS records and SSL details for phishing analysis, and outputs a structured analysis report.
- Implemented typosquatting domain detector generating character-substitution variants of brand domains and checking live DNS resolution for brand-impersonation analysis, resulting in a curated detector list.
- Deployed Telegram bot interface enabling analysts to submit URLs for live IOC enrichment; supports bulk CSV input and output for incident response workflows and includes OSINT enrichment via theHarvester for domain profiling, delivering a comprehensive bot command library.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
