Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying risk assessment and escalation discipline, producing consistent risk prioritization logs.
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, enabling risk assessment decisions.
- Documented audit-ready case notes capturing investigation findings, evidence, and corrective actions, creating a compliance tracking record for risk management.
- Detected recurring fraud patterns across 200+ weekly cases, flagging them early and reducing repeat-issue investigation time, establishing a pattern-based risk alert process.

Projects

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built multi-API threat intelligence pipeline in Python that submits suspicious URLs and IPs to VirusTotal and AbuseIPDB and cross-references WHOIS registration age, DNS records and SSL details for phishing analysis, producing a detailed phishing analysis report.
- Implemented typosquatting domain detector in Python that generates character-substitution variants of brand domains and checks live DNS resolution for brand-impersonation analysis, delivering a comprehensive typosquatting detection list.
- Deployed Telegram bot interface in Python enabling analysts to submit URLs for live IOC enrichment and supporting bulk CSV input and output for incident response workflows, delivering an enriched IOC package.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built automated vulnerability assessment pipeline in Python that integrates Nessus and OpenVAS REST APIs and enriches CVE reports with CVSS severity and EPSS context from the FIRST.org API, generating a consolidated vulnerability assessment report.
- Developed OWASP Top 10 automated web checker in Python that sends crafted HTTP requests to detect injection, broken authentication and SSRF vulnerabilities and documents findings with example exploit payloads and remediation guidance, producing an OWASP compliance checklist.
- Automated scan scheduling with Bash and cron, adding delta-scan logic to flag newly discovered CVEs and organize patch compliance tracking evidence, creating a continuous patch compliance evidence set.

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring
Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics
Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening
Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics
Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
