Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Claret College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Claret PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist Amazon FBA	Jun. 2024 – Jan. 2026 Bengaluru, India
• Triageed 50+ weekly inventory reimbursement cases by severity and policy eligibility, identifying high-risk cases for senior reviewer escalation. • Investigated seller claims, analyzing policy violations and anomalous patterns to inform decision-making. • Analyzed 200+ weekly cases to detect recurring fraud patterns, reducing repeat-issue investigation time before escalation. • Documented audit-ready case notes, recording investigation findings, decisions, evidence, and corrective actions.	

Projects

Credit Risk Triage and Structured Escalation Lab	<i>Python, Splunk, Wireshark, Nmap, MITRE ATT&CK</i>
• Developed escalation workflow for risk classification, routing, and SLA adherence. Deployed Splunk SIEM with SPL searches for brute-force detection, lateral movement, and privilege escalation. Mapped TTPs to MITRE ATT&CK, wrote PICERL incident report, and collaborated with FIRST.org. • Built automated detection pipeline: ingests Splunk alerts, enriches with VirusTotal API, dispatches Telegram notifications with severity classification and prioritization. • Converted detection logic to Sigma rules; analyzed TCP/IP traffic in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure; documented audit trails for decision-making.	
Vulnerability Scanner and Patch Prioritization Engine	<i>Python, Bash, Nessus, OpenVAS, NVD API</i>
• Developed automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python, generating CVE reports with CVSS severity and EPSS context from FIRST.org API, and creating audit documentation for compliance tracking. • Developed OWASP Top 10 automated web checker to detect injection, auth, and SSRF vulnerabilities; documented SQL injection remediation and pattern recognition techniques. • Automated scan scheduling via Bash and cron; built delta-scan logic for CVE flagging and patch compliance tracking; implemented risk prioritization for vulnerability mitigation.	

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions, risk

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
