Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage workflow and escalation protocol, achieving consistent case routing.
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for resolution.
- Documented audit-ready case records with investigation findings, evidence notes, and corrective actions, supporting compliance reviews and traceability.
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk with SPL correlation searches for brute-force, lateral movement and privilege escalation; mapped TTPs to MITRE ATT&CK; generated incident report using PICERL.
- Created Python script that consumes Splunk alerts, enriches IOCs via VirusTotal API, and sends Telegram notifications with severity classification.
- Translated detection logic into Sigma rules; captured TCP/IP traffic in Wireshark to identify SYN scans, DNS tunnelling and plaintext credential exposure on unencrypted sessions.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built Python pipeline that pulls scan data from Nessus and OpenVAS REST APIs, correlates CVEs with NVD data and EPSS scores from FIRST.org API.
- Developed Bash script that sends crafted HTTP requests to test OWASP Top 10 risks, logs injection, broken authentication and SSRF findings, and records SQL injection exploit details with parameterised query remediation.
- Automated scan scheduling with Bash and cron, added delta-scan logic to highlight newly discovered CVEs and compiled patch compliance tracking evidence.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
