Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, following structured triage and escalation workflows, achieving 98% SLA compliance
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for timely resolution
- Documented audit-ready case records with investigation findings, evidence notes and corrective actions, enabling seamless compliance audits
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk with SPL correlation searches for brute force detection, lateral movement and privilege escalation and mapped TTPs to MITRE ATT&CK in a detailed incident report.
- Created a Python script that ingests Splunk alerts, enriches IOCs via VirusTotal API and dispatches Telegram notifications with severity classification.
- Converted detection logic to Sigma rules for vendor neutral use and performed TCP/IP analysis in Wireshark to identify SYN scans, DNS tunnelling and plaintext credential exposure on unencrypted sessions.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built an automated assessment pipeline that integrates Nessus and OpenVAS REST APIs in Python and generates CVE reports classified by CVSS severity with EPSS context from the FIRST.org API.
- Developed an OWASP Top 10 web checker that sends crafted HTTP requests to detect injection, broken authentication and SSRF vulnerabilities and documented a SQL injection exploit with remediation steps.
- Automated scan scheduling using Bash and cron and implemented delta-scan logic to flag newly discovered CVEs and produce patch compliance tracking evidence.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
