Education

Presidency College

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

2021 – 2023

St. Claret College

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

2018 – 2021

St. Claret PU College

Higher Secondary (12th) · Bengaluru, India

2016 – 2018

Work Experience

Support Operations Specialist

Amazon FBA

Jun. 2024 – Jan. 2026

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage discipline to prioritize high-risk cases.
- Investigated seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for timely decision-making.
- Maintained detailed, audit-ready case documentation, recording investigation findings, decisions, evidence notes, and corrective actions for transparent decision trails.
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

Projects

Compliance and Control Validation Framework | Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot, audit-ready documentation

- Developed audit-ready documentation for compliance tracking and control validation: built multi-API threat intelligence pipeline submitting suspicious URLs/IPs to VirusTotal, AbuseIPDB, and URLScan.io; cross-referenced WHOIS registration age, DNS records, and SSL details for phishing analysis.
- Implemented typosquatting domain detector generating character-substitution variants of brand domains and checking live DNS resolution for brand-impersonation analysis and compliance tracking.
- Deployed Telegram bot interface enabling analysts to submit URLs for live IOC enrichment; supports bulk CSV input/output for incident response workflows and includes OSINT enrichment via theHarvester for domain profiling and audit trail creation.

Compliance and Vulnerability Management Framework | Python, Bash, Nessus, OpenVAS, NVD API, compliance tracking

- Built automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python; generated CVE reports classified by CVSS severity and EPSS context from the FIRST.org API for compliance tracking.
- Developed OWASP Top 10 automated web checker that sends crafted HTTP requests to detect injection, broken auth, and SSRF vulnerabilities; documented SQL injection exploit and parameterised query remediation for audit trail completeness.
- Automated scan scheduling via Bash and cron; built delta-scan logic to flag newly discovered CVEs and organize patch compliance tracking evidence for control validation.

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring

Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics

Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening

Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics

Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
