Education

Presidency College

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

2021 - 2023

St. Claret College

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

2018 - 2021

St. Claret PU College

Higher Secondary (12th) · Bengaluru, India

2016 - 2018

Work Experience

Support Operations Specialist

Amazon FBA

Jun. 2024 - Jan. 2026

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, following structured case triage and escalation workflows, with 100% of cases escalated to senior reviewers within 2 hours.
- Investigated seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, resulting in a 30% reduction in repeat-issue investigation time.
- Maintained audit-ready case documentation recording investigation findings, decisions, evidence notes, and corrective actions, with 100% of cases meeting audit standards.
- Detected recurring fraud patterns across 200+ weekly cases and flagged them early, reducing repeat-issue investigation time by 25% before escalation to senior reviewers.

Projects

SOC Automation and Threat Detection Lab |

Python, Splunk, Wireshark, Nmap, MITRE ATT&CK

- Deployed Splunk SIEM with SPL correlation searches for brute-force detection, lateral movement, and privilege escalation; mapped TTPs to MITRE ATT&CK and wrote incident report in PICERL format.
- Built automated detection pipeline using Python script that ingests Splunk alerts, runs IOC enrichment via VirusTotal API, and dispatches Telegram notifications with severity classification.
- Converted detection logic to Sigma rules for vendor-neutral SIEM use; performed TCP/IP analysis in Wireshark to detect SYN scans, DNS tunnelling, and plaintext credential exposure on unencrypted sessions.

Phishing and OSINT Threat Intelligence Tool |

Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot

- Built multi-API threat intelligence pipeline that submits suspicious URLs/IPs to VirusTotal, AbuseIPDB, and URLScan.io; cross-references WHOIS registration age, DNS records, and SSL details for phishing analysis.
- Implemented typosquatting domain detector generating character-substitution variants of brand domains and checking live DNS resolution for brand-impersonation analysis.
- Deployed Telegram bot interface enabling analysts to submit URLs for live IOC enrichment; supports bulk CSV input/output for incident response workflows and includes OSINT enrichment via theHarvester for domain profiling.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

Automation: Python, Bash (basic), regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
