Education

Presidency College

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

2021 – 2023

St. Claret College

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

2018 – 2021

St. Claret PU College

Higher Secondary (12th) · Bengaluru, India

2016 – 2018

Work Experience

Support Operations Specialist

Amazon FBA

Jun. 2024 – Jan. 2026

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, following structured case workflows.
- Investigated root cause analysis on seller claims, identifying policy violations and anomalous patterns.
- Analyzed 200+ weekly cases to detect recurring fraud patterns, reducing repeat-issue investigation time before escalation.
- Documented case findings, decisions, evidence notes, and corrective actions in audit-ready case records.

Projects

GRC Analyst Internship Experience | Audit-ready documentation, control validation, compliance tracking, evidence completeness, Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot

- Created audit-ready documentation for control validation: tracked compliance status and generated evidence notes for corrective actions and documentation completeness.
- Identified and documented repeat-issue patterns: flagged audit trail anomalies and escalated to relevant stakeholders for early resolution.
- Developed structured investigation workflows: implemented multi-API cross-referencing for WHOIS, DNS, and SSL analysis, and integrated OSINT enrichment (open-source intelligence) via theHarvester for domain profiling.

GRC Analyst Internship Experience | Audit-ready documentation, control validation, compliance tracking, evidence completeness, Python, Bash, Nessus, OpenVAS, NVD API, FIRST.org API

- Validated control effectiveness: integrated Nessus and OpenVAS REST APIs in Python to generate CVE reports classified by CVSS severity (vulnerability prioritisation) and EPSS context from the FIRST.org API.
- Developed automated web vulnerability checker: sent crafted HTTP requests to detect injection, broken auth, and SSRF vulnerabilities, and documented SQL injection exploit and parameterised query remediation.
- Scheduled automated scans via Bash and cron: built delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring

Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics

Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening

Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics

Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
