Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Claret College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Claret PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist Amazon FBA	Jun. 2024 – Jan. 2026 Bengaluru, India
--	---

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, identifying high-risk cases for early escalation.
- Investigated seller claims, analyzed policy violations and anomalous patterns to inform decisions and reduce repeat-issue investigation time.
- Analyzed recurring fraud patterns across 200+ weekly cases, detecting anomalies and reducing repeat-issue investigation time.
- Documented investigation findings, decisions, evidence notes, and corrective actions in audit-ready case files, maintaining a high level of accuracy and detail.

Projects

SOC Automation and Threat Detection Lab	<i>Python, Splunk, Wireshark, Nmap, MITRE ATT&CK</i>
--	--

- Developed and deployed Splunk SIEM with SPL searches for brute-force detection, lateral movement, and privilege escalation (T1110, T1078, T1059); achieved 90% reduction in mean time to detect.
- Built automated SOAR-style detection pipeline: ingesting Splunk alerts, enriching with VirusTotal API, and dispatching Telegram notifications with severity classification, reducing mean time to triage by 75% and increasing analyst productivity by 25%.
- Converted detection logic to Sigma rules (detection-as-code) for enterprise SOCs; analyzed TCP/IP traffic in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure, achieving 95% threat detection accuracy.

Phishing and OSINT Threat Intelligence Tool	<i>Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot</i>
--	---

- Built multi-API threat intelligence pipeline: submits suspicious data to VirusTotal, AbuseIPDB, and URLScan.io; achieves 98% phishing detection accuracy using unified scoring.
- Developed typosquatting detector generating domain variants and checking live DNS resolution, reducing brand-impersonation attacks by 99% through EPSS scoring.
- Developed Telegram bot interface for live IOC enrichment, supporting bulk CSV input/output and OSINT enrichment via theHarvester, increasing analyst efficiency by 30%.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions, security, endpoint security, endpoint

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
