## Education

### Presidency College

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

2021 - 2023

### St. Claret College

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

2018 - 2021

### St. Claret PU College

Higher Secondary (12th) · Bengaluru, India

2016 - 2018

## Work Experience

### Support Operations Specialist

Amazon FBA

Jun. 2024 - Jan. 2026

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage discipline to prioritize high-risk cases for senior reviewer escalation.
- Investigated seller claims, identified policy violations and anomalous patterns through root cause analysis, and escalated findings to senior reviewers for timely decision-making.
- Maintained audit-ready case documentation, recording investigation findings, decisions, evidence notes, and corrective actions
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

## Projects

### Compliance and Audit Trail Evidence Creation Tool | Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot

- Created audit-ready documentation for compliance tracking: built multi-API threat intelligence pipeline that submits suspicious URLs/IPs to VirusTotal, AbuseIPDB, and URLScan.io, and cross-references WHOIS registration age, DNS records, and SSL details for phishing analysis.
- Developed control validation and decision trails: implemented typosquatting domain detector generating character-substitution variants of brand domains and checking live DNS resolution for brand-impersonation analysis.
- Established compliance tracking and evidence completeness: deployed Telegram bot interface enabling analysts to submit URLs for live IOC enrichment, supports bulk CSV input/output for incident response workflows, and includes OSINT enrichment via theHarvester for domain profiling.

### Compliance and Vulnerability Assessment Tool |

Python, Bash, Nessus, OpenVAS, NVD API

- Generated compliance tracking evidence: built automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python, and generated CVE reports classified by CVSS severity and EPSS context from the FIRST.org API.
- Developed control validation and remediation tracking: developed OWASP Top 10 automated web checker that sends crafted HTTP requests to detect injection, broken auth, and SSRF vulnerabilities, and documented SQL injection exploit and parameterised query remediation.
- Established compliance tracking and patch compliance: automated scan scheduling via Bash and cron, and built delta-scan logic to flag newly discovered CVEs and organize patch compliance tracking evidence.

## Technical Skills

**GRC & Compliance:** NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring

**Risk & Audit:** Risk assessment, control testing, audit documentation, vendor risk, RCSA basics

**Fraud & AML:** Transaction monitoring, AML typologies, KYC/CDD, sanctions screening

**Systems & Tools:** Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics

**Frameworks:** MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

## Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
