Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage and escalation workflow
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, enabling risk escalation process.
- Documented audit-ready case notes with investigation findings, decisions, evidence, and corrective actions, creating control evidence for compliance tracking.
- Detected recurring fraud patterns across 200+ weekly cases, flagged early to reduce repeat-issue investigation time before escalation, establishing pattern detection metric.

Projects

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built multi-API threat intelligence pipeline in Python that submits suspicious URLs and IPs to VirusTotal, AbuseIPDB and URLScan.io and cross-references WHOIS registration age, DNS records and SSL details to produce a phishing analysis report.
- Implemented typosquatting domain detector in Python that generates character-substitution variants of brand domains and checks live DNS resolution for brand-impersonation analysis, resulting in a typosquatting detection list.
- Deployed Telegram bot interface in Python enabling analysts to submit URLs for live IOC enrichment, supports bulk CSV input and output for incident response workflows and adds OSINT enrichment via theHarvester for domain profiling, delivering an enriched IOC payload.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built automated vulnerability assessment pipeline in Python that integrates Nessus and OpenVAS REST APIs and generates CVE reports classified by CVSS severity and EPSS context from the FIRST.org API, creating a CVSS severity report.
- Developed OWASP Top 10 automated web checker in Python that sends crafted HTTP requests to detect injection, broken authentication and SSRF vulnerabilities and documented a SQL injection exploit with a parameterised query remediation guide.
- Automated scan scheduling with Bash and cron, added delta-scan logic to flag newly discovered CVEs and organized patch compliance tracking evidence, producing comprehensive patch compliance evidence.

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring

Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics

Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening

Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics

Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
