## Education

### Presidency College

2021 – 2023

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

### St. Claret College

2018 – 2021

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

### St. Claret PU College

2016 – 2018

Higher Secondary (12th) · Bengaluru, India

## Work Experience

### Support Operations Specialist

Jun. 2024 – Jan. 2026

Amazon FBA

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, translating high-volume case review into suspicious pattern detection and investigation handoffs.
- Conducted root cause analysis on seller claims, identifying policy violations and anomalous patterns for pattern review and investigation handoffs.
- Maintained audit-ready case documentation with findings, decisions, evidence notes, and corrective actions aligned to evidence documentation and decision trails.
- Spotted recurring fraud patterns across 200+ weekly cases and flagged repeat issues early, reducing investigation cycles before escalation.

## Projects

### SOC Automation and Threat Detection Lab |

Python, Splunk, Wireshark, Nmap, MITRE ATT&CK

- Deployed Splunk SIEM with SPL searches for brute-force detection, lateral movement, and privilege escalation; mapped TTPs to MITRE ATT&CK and wrote PICERL incident report for FIRST.org.
- Developed SOAR-style detection pipeline using Python, ingesting Splunk alerts, enriching with VirusTotal API, and dispatching Telegram notifications with severity classification.
- Converted detection logic to Sigma rules (detection-as-code) for enterprise SOCs; analyzed TCP/IP in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure.

### Vulnerability Scanner and Patch Prioritization Engine |

Python, Bash, Nessus, OpenVAS, NVD API

- Built automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python; generated CVE reports classified by CVSS severity (vulnerability prioritisation) and EPSS context from the FIRST.org API.
- Developed OWASP Top 10 automated web checker to detect web app vulnerabilities, including injection, auth, and SSRF; documented SQL injection exploit remediation.
- Automated scan scheduling via Bash and cron; built delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.

## Technical Skills

**SOC Operations:** Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

**SIEM & Monitoring:** Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

**Threat Intelligence:** MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

**Systems & Networking:** Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts

**Automation:** Python, Bash (basic), regular expressions, api, cve, aws, seller-claim anomalies -> suspicious pattern detection and investigation handoffs

## Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
