Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying risk-based prioritization and escalation workflow, producing an audit-ready case queue.
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers, establishing a risk evidence trail.
- Documented investigation findings, decisions, evidence notes, and corrective actions in audit-ready case files, creating compliance tracking records.
- Identified recurring fraud patterns across case history and flagged them ahead of weekly review cycles, cutting repeat-issue re-investigation before escalation.

Projects

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built multi-API threat intelligence pipeline that submits suspicious URLs and IPs to VirusTotal, AbuseIPDB and URLScan.io and cross-references WHOIS registration age, DNS records and SSL details, producing a consolidated phishing analysis report.
- Implemented typosquatting domain detector that generates character-substitution variants of brand domains and checks live DNS resolution for brand-impersonation analysis, delivering a list of flagged domains.
- Deployed Telegram bot interface that enables analysts to submit URLs for live IOC enrichment, supports bulk CSV input and output for incident response workflows, and adds OSINT enrichment via theHarvester for domain profiling, creating enriched IOC packets.

Vulnerability Scanner and Patch Prioritization Engine | *Python, Bash, Nessus, OpenVAS, NVD API*

- Built automated vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python and generating CVE reports classified by CVSS severity and EPSS context from the FIRST.org API, producing a unified vulnerability report.
- Developed OWASP Top 10 automated web checker that sends crafted HTTP requests to detect injection, broken authentication and SSRF vulnerabilities and documents SQL injection exploit with parameterised query remediation, outputting a detailed findings document.
- Automated scan scheduling with Bash and cron and added delta-scan logic to flag newly discovered CVEs and organize patch compliance tracking evidence, creating a daily scan delta log.

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring

Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics

Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening

Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics

Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
