Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Claret College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Claret PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist Amazon FBA	Jun. 2024 – Jan. 2026 Bengaluru, India
• Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, identifying high-risk cases for early escalation. • Investigated seller claims, conducting root cause analysis to identify policy violations and anomalous patterns. • Analyzed 200+ weekly cases to detect recurring fraud patterns, reducing repeat-issue investigation time by early flagging. • Documented audit-ready case findings, decisions, evidence notes, and corrective actions, maintaining a comprehensive case record.	

Projects

Information Security Risk Analyst, Program Lead	<i>Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot</i>
• Developed audit-ready documentation for risk assessments: created decision trails, evidence notes, and corrective actions for security control validation and compliance tracking. • Identified and flagged repeat security issues through pattern detection: recognized anomalies in audit logs, flagged control gaps, and escalated to management for remediation. • Maintained complete and accurate evidence records: ensured documentation completeness, tracked control validation, and updated risk assessments to reflect security posture.	

Information Security Risk Analyst, Program Lead	<i>Python, Bash, Nessus, OpenVAS, NVD API</i>
• Validated security controls through control validation: integrated Nessus and OpenVAS REST APIs in Python to generate CVE reports classified by CVSS severity (vulnerability prioritisation) and EPSS context from the FIRST.org API. • Prioritized security risks through risk assessment: developed OWASP Top 10 (web application security) automated web checker that documented SQL injection exploit and parameterised query remediation. • Tracked security compliance through patch tracking: automated scan scheduling via Bash and cron, and built delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.	

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring
Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics
Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening
Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics
Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation, security

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
