Education

Presidency College

2021 – 2023

Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College

2018 – 2021

Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College

2016 – 2018

Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist

Jun. 2024 – Jan. 2026

Amazon FBA

Bengaluru, India

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, identifying high-risk cases for escalation to senior reviewers.
- Investigated seller claims, analyzing root cause and policy violations to inform decision-making and reduce repeat-issue investigation time.
- Analyzed 200+ weekly cases for recurring fraud patterns, detecting anomalies and flagging them early to prevent repeat issues.
- Documented case findings, decisions, evidence, and corrective actions in audit-ready records, ensuring transparency and accountability in case resolution.

Projects

SOC Automation and Threat Detection Lab |

Python, Splunk, Wireshark, Nmap, MITRE ATT&CK

- Deployed Splunk SIEM with SPL correlation searches to monitor IAM anomalies, mapping cloud-relevant TTPs to MITRE ATT&CK and writing PICERL incident reports.
- Developed cloud security pipeline: Python script ingests Splunk alerts for IAM policy violations, enriches with VirusTotal API, and dispatches Telegram notifications with severity classification.
- Developed Sigma-compatible rules for cloud TTPs, including credential abuse and lateral movement, and analyzed network traffic in Wireshark for anomalous patterns.

Vulnerability Scanner and Patch Prioritization Engine |

Python, Bash, Nessus, OpenVAS, NVD API

- Developed automated cloud infrastructure vulnerability assessment pipeline using Nessus and OpenVAS APIs in Python, generating CVE reports with EPSS context from FIRST.org API and CVSS severity classification.
- Developed automated security checker for cloud-hosted applications testing OWASP Top 10 vulnerabilities, including injection, broken authentication, and SSRF; documented remediation workflows for cloud misconfigurations and exposed endpoints.
- Automated vulnerability scan scheduling via Bash and cron for cloud security monitoring; built delta-scan logic to detect newly exposed CVEs and organize cloud compliance evidence.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, IDS/IPS, AWS (IAM, CloudTrail, GuardDuty), cloud security posture

Automation: Python, Bash (basic), boto3, regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
