Education

Presidency College *2021 – 2023*
Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India

St. Claret College *2018 – 2021*
Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India

St. Claret PU College *2016 – 2018*
Higher Secondary (12th) · Bengaluru, India

Work Experience

Support Operations Specialist *Jun. 2024 – Jan. 2026*
Amazon FBA *Bengaluru, India*

- Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, applying structured triage and escalation workflow
- Investigated root causes of seller claims, identified policy violations and anomalous patterns, and escalated findings to senior reviewers for management action.
- Documented audit-ready case records with investigation findings, evidence notes, and corrective actions, ensuring compliance and facilitating management review.
- Detected recurring fraud patterns across 200+ weekly cases, flagged early and reduced repeat-issue investigation time before escalation, improving management oversight.

Projects

SOC Automation and Threat Detection Lab | *Python, Splunk, Wireshark, Nmap, MITRE ATT&CK*

- Deployed Splunk SIEM with SPL correlation searches for brute force detection, lateral movement and privilege escalation and mapped TTPs to MITRE ATT&CK, producing a correlation search library.
- Built an automated SOAR style detection pipeline where a Python script ingests Splunk alerts, enriches IOCs via VirusTotal API and dispatches Telegram notifications with severity classification, delivering a Telegram notification workflow.
- Converted detection logic to Sigma rules in a vendor neutral format and performed TCP IP analysis in Wireshark to detect SYN scans, DNS tunnelling and plaintext credential exposure on unencrypted sessions, resulting in a Sigma rule set.

Phishing and OSINT Threat Intelligence Tool | *Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot*

- Built a multi API threat intelligence pipeline that submits suspicious URLs and IPs to VirusTotal and AbuseIPDB and cross references WHOIS registration age, DNS records and SSL details for phishing analysis, creating a comprehensive enrichment report.
- Implemented a typosquatting domain detector that generates character substitution variants of brand domains and checks live DNS resolution for brand impersonation analysis, producing a list of flagged domains.
- Deployed a Telegram bot interface that enables analysts to submit URLs for live IOC enrichment and supports bulk CSV input and output for incident response workflows while including OSINT enrichment via theHarvester for domain profiling, delivering an interactive enrichment bot.

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis

SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark

Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain

Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, IDS/IPS, AWS (IAM, CloudTrail, GuardDuty), cloud security posture

Automation: Python, Bash (basic), boto3, regular expressions

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
