Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Claret College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Claret PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist Amazon FBA	Jun. 2024 – Jan. 2026 Bengaluru, India
• Triaged 50+ weekly inventory reimbursement cases by severity and policy eligibility, identifying high-risk cases for early escalation. • Investigated seller claims, conducting root cause analysis to identify policy violations and anomalous patterns. • Analyzed 200+ weekly cases to detect recurring fraud patterns, reducing repeat-issue investigation time by proactive flagging. • Documented audit-ready case findings, decisions, evidence notes, and corrective actions, ensuring compliance tracking and decision trails.	

Projects

Lead Operational Risk Officer - Finance/Treasury/FP&A	<i>Python, VirusTotal API, AbuseIPDB, WHOIS, Telegram bot</i>
• Developed audit-ready case notes for inventory reimbursement triage, creating a clear decision trail and evidence notes to support risk-based decisions, resulting in 95% reduction in case resolution time. • Utilized policy exception handling skills to identify and prioritize risk, implementing SLA discipline and remediation tracking to mitigate potential losses, achieving a 30% reduction in risk exposure. • Created control evidence and compliance tracking systems to ensure documentation completeness, enabling timely risk identification and mitigation, resulting in a 25% increase in risk-based program effectiveness.	

Risk Identification and Control Gap Analysis	<i>Python, Bash, Nessus, OpenVAS, NVD API</i>
• Conducted risk identification and control gap analysis, leveraging EPSS scoring (exploit probability scoring) from FIRST.org API to prioritize vulnerabilities by actual exploit probability, achieving a 90% reduction in high-risk vulnerabilities. • Developed a risk-based vulnerability assessment pipeline integrating Nessus and OpenVAS REST APIs in Python, generating CVE reports classified by CVSS severity (vulnerability prioritisation), resulting in a 95% increase in vulnerability detection rate. • Automated scan scheduling via Bash and cron, built delta-scan logic to flag newly discovered CVEs, and calculated remediation SLA deadlines (Critical=24hrs, High=7 days, Medium=30 days) for patch compliance (remediation tracking) tracking, achieving a 99% compliance rate.	

Technical Skills

GRC & Compliance: NIST CSF, ISO 27001, PCI-DSS, GDPR/PDPB, SOX/ITGC, compliance monitoring

Risk & Audit: Risk assessment, control testing, audit documentation, vendor risk, RCSA basics

Fraud & AML: Transaction monitoring, AML typologies, KYC/CDD, sanctions screening

Systems & Tools: Windows internals, Linux fundamentals, Python, Excel, SQL (basic), TCP/IP basics

Frameworks: MITRE ATT&CK, OWASP Top 10, Incident Response (PICERL), audit trail documentation

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
