Education

Presidency College <i>Master of Computer Applications (MCA) · CGPA 7.29 · Bengaluru, India</i>	2021 – 2023
St. Claret College <i>Bachelor of Computer Applications (BCA) · CGPA 7.21 · Bengaluru, India</i>	2018 – 2021
St. Claret PU College <i>Higher Secondary (12th) · Bengaluru, India</i>	2016 – 2018

Work Experience

Support Operations Specialist Amazon FBA	Jun. 2024 – Jan. 2026 Bengaluru, India
• Triageed 50+ weekly inventory reimbursement cases by severity and policy eligibility, ensuring timely resolution and reducing security risks. • Investigated seller claims, identifying policy violations and anomalous patterns to prevent cyber threats and maintain cloud security. • Analyzed 200+ weekly cases to detect recurring fraud patterns, reducing repeat-issue investigation time and enhancing security posture. • Documented audit-ready case findings, decisions, evidence notes, and corrective actions, maintaining accurate and secure records.	

Projects

Cyber Security Work From Home Internship	<i>Python, Splunk, Wireshark, Nmap, MITRE ATT&CK</i>
• Developed Splunk SIEM with SPL searches for brute-force detection, lateral movement, and privilege escalation (T1110, T1078, T1059); mapped TTPs to MITRE ATT&CK and wrote incident report. • Developed SOAR-style detection pipeline: Python script ingests Splunk alerts, enriches with VirusTotal API, and dispatches Telegram notifications with severity classification. • Converted detection logic to Sigma rules (detection-as-code) for enterprise SOCs; analyzed TCP/IP in Wireshark for SYN scans, DNS tunnelling, and plaintext credential exposure.	
Cloud Security and Compliance	<i>Python, Bash, Nessus, OpenVAS, NVD API</i>
• Developed automated vulnerability pipeline integrating Nessus and OpenVAS APIs in Python, generating CVE reports with CVSS severity and EPSS context from FIRST.org API. • Developed OWASP Top 10 automated web checker to detect web app vulnerabilities (injection, auth, SSRF) and documented SQL injection remediation. • Automated scan scheduling via Bash and cron; built delta-scan logic to flag newly discovered CVEs and organize patch compliance (remediation tracking) tracking evidence.	

Technical Skills

SOC Operations: Alert triage, incident investigation, log analysis, threat detection, escalation, false positive analysis
SIEM & Monitoring: Splunk (SPL), Elastic SIEM (basic), Windows Event Logs, Sysmon, Wireshark
Threat Intelligence: MITRE ATT&CK, IOC analysis, VirusTotal, OSINT enrichment, Cyber Kill Chain
Systems & Networking: Windows internals, Linux fundamentals, TCP/IP, DNS, HTTP/S, firewall and IDS/IPS concepts
Automation: Python, Bash (basic), regular expressions, security, cloud

Certifications

- CompTIA Security+ SY0-701 — in progress, exam target Q3 2026
- Cisco Networking Academy — Introduction to Networking · Introduction to Cybersecurity
